

Fynity Operations & Client Success Portal Roles & Permissions Document

Introduction

The Fynity Operations & Client Success Portal uses Role-Based Access Control (RBAC) to ensure that users can access only the features and data relevant to their responsibilities.

The system is designed with four primary roles:

1. Super Admin
2. Admin
3. Client
4. Student

Each role has specific permissions to maintain security, data integrity, and operational efficiency.

1. Super Admin

Description

The Super Admin is the highest authority in the system and has complete control over all modules, users, and business operations.

Permissions

User Management

- Create Users
- View Users
- Edit Users
- Delete Users
- Assign Roles

Client Management

- Create Clients
- View Clients

- Edit Clients
- Delete Clients
- Manage Project Milestones
- Manage Project Updates

Invoice Management

- Create Invoices
- Edit Invoices
- Delete Invoices
- Manage Invoice Line Items
- Record Payments
- Manage Invoice Templates

Workshop Management

- Create Workshops
- Edit Workshops
- Delete Workshops
- Manage College Partners
- Manage Workshop Participants

Mentorship Management

- Create Student Records
- Edit Student Records
- Delete Student Records
- Manage EMI Records
- Manage Mentorship Sessions

Finance Management

- Manage Expenses
- Manage Income Records
- Manage Balance Accounts
- Manage Balance Transactions

- Manage Claim Reimbursements

Communication

- Manage Email Templates
- Send Messages
- Manage Notifications

Documents

- Upload Documents
- Edit Documents
- Delete Documents

Audit

- View Audit Logs
- Export Audit Reports

Company Settings

- Manage Company Settings
- Configure System Settings

2. Admin

Description

The Admin role acts as a monitoring and reporting role with read-only access to the system.

Admins can view records across modules but cannot modify data.

Permissions

User Management

- View Users

Client Management

- View Clients
- View Project Milestones
- View Project Updates

Invoice Management

- View Invoices
- View Payments
- View Invoice Line Items

Workshop Management

- View Workshops

Finance	Full Access	View Only	No Access	No Access
Documents	Full Access	View Only	Shared Documents	Shared Documents
Messages	Full Access	View Only	Own Messages	Own Messages
Notifications	Full Access	View Only	Own Notifications	Own Notifications
Audit Logs	Full Access	View Only	No Access	No Access
Company Settings	Full Access	No Access	No Access	No Access

Conclusion

The Fynity Operations & Client Success Portal implements a simple and secure four-role architecture.

- Super Admin manages the entire platform.
- Admin has monitoring and reporting access.
- Client accesses only project and billing information related to their organization.
- Student accesses mentorship, workshop, and learning-related information.

This role structure provides security, scalability, and clear separation of responsibilities while keeping the system easy to manage and maintain.
